

The FAA Safety Team presents:

Starved and Exhausted

Fuel management accidents cause far too many General Aviation accidents, nearly two per week on average. Whether the result of fuel exhaustion, starvation or contamination, these mishaps are easily preventable. Join us for a review of some past accidents and tools you can use to prevent you from becoming a statistic.

Directions: Please see map link for directions, seminar will be held in the Airport Conference Room.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
